Education

PhD, Mathematics & Computational Neuroscience *2023 – present*
Intelligent Systems Research Centre, Magee College, University of Ulster
Mathematical & computational spectral graph theory-based analysis & modelling of heterosynaptic plasticity

MRes (Masters of Research), Queen's University, Belfast *2022–2023*
Distinction

PGCE (Mathematics), Queen's University, Belfast *2018–2019*
GTCNI Star Award and E. Fulton Prize for Mathematics

MA (Dubl) Mathematics, Trinity College Dublin *2014–2018*
First Class Honours with Gold Medal

Experience

Visiting Researcher: University of Bristol *February 2024 – present*
Applied Mathematics, Intelligent Systems Research Lab

Postgraduate Teaching Assistant: University of Ulster *September 2023 – present*
Mathematics and algorithms modules

Teacher of Mathematics: Wellington College Belfast *2019–2022*
Mathematics, Further Mathematics, and Physics

Research Projects, Publications, and Presentations

Heterosynaptic plasticity rules induce small-world network topologies *Due June 2024*
Poster: International Conference of Mathematical Neuroscience, Dublin

Connectome-inspired multi-task reservoirs *Due July 2024*
Poster: Neural Computation Conference, Sheffield (submitted)

Graph-theory perspectives on network structure in reservoir computing *2024*
Ongoing research collaboration with University of Bristol

Mathematical modelling of synaptic maturation dynamics & circuit formation *2024*
Ongoing research collaboration with University of Bristol

The capacity and accuracy of a triple-well Hopfield model *2023*
Research Project & Presentation: Intelligent Systems Research Centre

A discrete attractor model of decision making *2023*
Research Project & Presentation: Using dynamical systems to model decision-making processes

The topology of autistic heterogeneity *2022/23*
Research Project: Using topological data analysis to examine autism neuropsychological data

The impact of formative assessment on student attitudes to mathematics *2023*
Research Project: A synthesis of the literature

A multilevel analysis of high-stakes examination results in mathematics *2021*
Cantley, I., & McAllister, J. https://doi.org/10.1007/s11199-021-01234-5
Cambridge University: Talk at British Society for Research into Learning Mathematics (BSRLM) *2020*

Trigonometric series and the emergence of transfinite set theory *2018*
Final Year Research Dissertation & Poster. First class (distinction). Trinity College Dublin

Complex numbers in mathematics education *2018*
Mathematics Education Research Project. First class (distinction). Trinity College Dublin

Skills and Interests

Languages: English, German, French, British Sign Language

Programming Languages: Python, Julia, MATLAB, SPSS

Other Developer Tools: LaTeX, Microsoft, Google Suite

Areas of Interest: Graph & network theory, mathematical modelling of synaptic plasticity, applications of topology & topological data analysis, functional analysis, assessment theory

Achievements

Gold Medal, Trinity College Dublin *2018*

Naughton Foundation Scholarship *2014–2018*

Exhibition Award, Trinity College Dublin *2014*

Trinity College Dublin Sizarship *2014–2018*

Trinity College Dublin First Class Prize *2015, 2016, 2017*

E. Fulton Prize for Mathematics (PGCE), QUB *2019*

GTCNI Star Award *2019*

Courses and Training

Deep Learning Neuromatch Academy Summer School

Computational Neuroscience Autumn School, Intelligent Systems Research Centre, Ulster University

Computational Neuroscience Neuromatch Academy Summer School

INCF (International Neuroinformatics Coordinating Facility): Mathematical & Computational Modelling of Neuronal Plasticity - Python-based modelling course

British Sign Language Level 1
